professional experience

SR. UX/UI Designer

Acuity, Inc., Sept 2023 - Present

Lead UX Designer for a government application, collaborating with Business Analysts to gather and refine requirements. Facilitate weekly stakeholder meetings and user testing sessions to inform design decisions. Responsible for task flows, wireframes, and interactive prototypes. Cross collaboration with Frontend Developers to ensure accurate implementation of approved designs.

Lead UX/UI Designer

Tarkik Solutions, Dec 2018 - Aug 2023

Lead UX Designer on the redesign of a government application, responsible for creating sitemaps, user flows, wireframes, and interactive prototypes. Support requirement gathering and lead facilitation of stakeholder and end-user meetings to align design with user needs and business goals.

UX/UI Designer

Discover Technologies., Oct 2016 - Oct 2018

Lead UI/UX Designer for a Power BI-based startup app. Defined branding, IA, and design framework. Created personas, user flows, wireframes, and prototypes. Conducted user testing and collaborated with developers on UI implementation using HTML, CSS, and Angular. Managed an intern and worked in an Agile environment.

UX/UI Designer

Fishbowl, Sept 2015 - Sept 2016

Designing wireframes, sitemaps, user flows, and prototypes for an email marketing and digital analytics software company. Develop interactive mockups and manage projects using JIRA within an Agile/SCRUM framework.
