professional experience

Senior UX/UI Designer

Steampunk, June 2025 - Current

Translating complex requirements into user-centered designs through stakeholder collaboration, user testing, wireframes, and interactive prototypes. Partnered with Frontend Developers to ensure seamless implementation of approved solutions.

Senior UX/UI Designer

Acuity, Inc., Sept 2023 - May 2025

Designer for a large-scale government application, partnering with Business Analysts to translate complex requirements into user-centered solutions. Led stakeholder meetings and user testing sessions to inform design decisions, while creating task flows, wireframes, and interactive prototypes. Collaborated closely with Frontend Developers to ensure accurate implementation of approved designs.

UX/UI Designer

Tarkik Solutions, Dec 2018 - Aug 2023

Lead design for the redesign of several government applications, creating user flows, wireframes, and interactive prototypes. Partnered with stakeholders and end users to gather requirements and deliver user-centered solution aligned with business goals.

UX/UI Designer

Discover Technologies., Oct 2016 - Oct 2018

Lead UI/UX Designer for a Power BI-based startup app. Defined branding, IA, and design framework. Created personas, user flows, wireframes, and prototypes. Conducted user testing and collaborated with developers on UI implementation using HTML, CSS, and Angular. Managed an intern and worked in an Agile environment.

UX/UI Designer

Fishbowl, Sept 2015 - Sept 2016

Designing wireframes, sitemaps, user flows, and prototypes for an email marketing and digital analytics software company. Develop interactive mockups and manage projects using JIRA within an Agile/SCRUM framework.
